---

Dear Alanna Mallon,

I'm writing because I support Massachusetts Against Hewlett-Packard (MAHP)'s effort to get the City of Cambridge to end its connections with Hewlett-Packard. HP profits enormously off the mass incarceration that has ruined countless lives and families in the USA in the last 30 years, its technology is also used in this country to track immigrants, and its technology is crucial to Israel's brutal and illegal occupation of the Palestinian West Bank -- a matter that is particularly appalling and painful to me because I am Jewish.

In my opinion the City of Cambridge -- where I've lived for almost 40 years -- should not be helping a company like HP make a profit. I hope you'll agree.

Yours truly,

Nancy E. Phillips
